We have all Corner Survey Records on the NDRIN site. To search for a corner record, enter “Corner Record” as the Instrument Type and the Section-Township-Range needed.

We have all of our Tract Index books scanned into NDRIN. You are able to search for each Section-Township-Range AND each City Subdivision Tract Index Page by entering “Tract Index” into the Instrument Type and the Section-Township-Range or City & Subdivision needed.

Searching on NDRIN:
