701-724-6241 ext. 112

Sargent County is a full member of NDRIN and has all real estate data and images on the NDRIN site dating back to September 2002. These records can be searched by grantor, grantee, legal description and instrument type. All deeds and miscellaneous documents have been uploaded to NDRIN and 40 years of mortgages, however, we are working on back indexing as time allows. For a fee, we can provide you with a copy of the Index Page.

Government Lots and Outlots

When searching for Government Lots and Outlots it would be best to search by section, township and range fields. Documents that have been recorded since April 2010 have been indexed by placing the lot number in the Lot/Unit field. To ensure a more accurate search please search by section, township and range.

Plats

Sargent County has been indexing city plat maps onto NDRIN. The plat maps are scanned in to the best of our ability. Some maps are older and can be harder to read. When searching for a plat map it is best to search instrument type as plat and then adding your city name and subdivision. If you need any help regarding plat maps or do not see what you are looking for on NDRIN please feel free to contact the email below for more assistance.

Corner Records

Sargent County has currently back scanned and renumbering all corner records. Corner Records available on NDRIN range from January 1, 1974 to Present. The numbering system that is being used is as follows; C as in Corner and 5 digits, for example C00840. If you need a copy of the index page please contact me at the email address below.

Please contact us if you have any problems accessing Sargent County records on this site at cindy.yagow@co.sargent.nd.us

Thank You.
