LaMoure County has digitized images on the NDRIN website dating back to the beginning of time. For images from the late 1800's to 1978 there will only be a Document Number and Book and Page indexed. You would need to call us to get this information. We are working to back index as we have time.

From 1978 beginning with Doc. No. 130561 is when we started indexing. There are gaps in time because of software changes where the only information indexed is the Document Number so if you try to search from the legal description, it will not show up. I would recommend doing as broad of search as possible and it will pull up more documents.

From January 1, 2013 going forward the indexing information should be up to date.

LaMoure County is presently e-Recording all documents that do not require an Auditor's transfer.

Corner Records are also available. If you cannot find what you are searching for, please feel free to contact us.
